## Week 10 Challenge

### Make the World a Better Place with Kindness Rocks

1. First go outside and find rocks! You can go out into nature or purchase them from a craft store. You will want smooth flat rocks because they are the best for decorating and writing on.
2. Paint your rocks a solid color using non-toxic acrylic paint or spray paint, then you can paint or write on a happy message once your rock dries. Use a paint pen like a Sharpie Oil Based paint pen or a small paint brush to write out your message.
3. When the painting is done, add a sealant to your rock such as Modge Podge or clear acrylic spray to prevent it from fading when outside. Please make sure your paint is dry before applying the sealant.
4. Optional: If you want the opportunity to see your rock online add the hashtag #TheKindnessRocksProject on the back before putting sealant on it. Then if someone shares that rock on social media and puts that hashtag in the message you may find your rock has made it big on social media later down the road.
5. Try to put your rocks places where people will notice them as they're walking by. You're making the world a better place by spreading positivity!

## Additional Information: How to Treat Nature Right

When you're gathering items outdoors for crafts, it's important that you try to keep the outdoors healthy by not taking too much or taking the wrong things from the wrong places.

- 1) Never collect items from State or National Parks, (rocks, leaves, twigs, feathers, etc.)
  - 2) Always ask permission when gathering items from someone else's property.
  - 3) Always leave  $\frac{3}{4}$  of the flowers, leaves, acorns, and nuts, untouched in an area so that they will come back the following year.
  - 4) Never collect endangered, threatened, or protected plants. Know before you go.
-
