Guidebook

Welcome to Your Juliette Jumpstart Guidebook!

Here is the beginning to your Girl Scout adventure!

One of the best things about being a Juliette is that you get to choose your own adventure.

There isn't one "right" way to be a Girl Scout.

Some Girl Scouts love camping.

Some love science.

Some love helping their communities.

Some dream about earning the Gold Award someday.

And some don't know yet...

That's okay!

This guide will help you discover what makes YOU excited about Girl Scouts.

Finding the Root Cause

Have you ever noticed something around you and thought, "I wish that were different"?

Maybe it's something at your school, in your neighborhood, in nature, or something that affects people or animals you care about.

As you grow in Girl Scouts, noticing what you care about, asking why, and thinking about solutions can help you take action in your community and even inspire a Highest Award project!

Start with something YOU care about.

Something I wish I could change is...

Now, dig a little deeper!

Why does this happen?

Who does it affect?

What do I think could make it better?
