

Greater Atlanta LEED Tour

Q: What is the LEED Tour?	Q: Is there any advance preparation required?
A: The LEED tour is unique to GSGATL. As part of the USGBC LEED Silver Certification and local Grants to Green opportunity, we developed an educational video tour to educate others about green building practices utilized during construction of our Mableton Service Center. We are currently working on having that video uploaded to our website to use on your mobile devices. In the interim we have a written version to read to girls.	A: Yes, we recommend leaders read through the entire patch program prior to coming. There are activity options requiring the group to bring their own supplies. Electronic copies of patch documents may be requested when making your reservation. If your group is taking <i>only the tour</i> , no preparation is needed.
Q: Where can we take the tour?	Q: Where can we find patch program directions to prepare?
A: The tour is available currently for checkout through the front receptionist desk of GSGATL Mableton Service Center. Calling 1-800-771-1139 for a reservation. Tour is available only during Badge & Sash business hours, including weekends.	A: Once an appointment is scheduled to take the tour, the confirmation packet will contain a link to the patch program directions. They are also available through GSGATL's website.
Q: How is the patch earned?	Q: Can the patch program help Girl Scouts earn other awards?
A: Taking the Tour earns the green center patch; any individual who takes the tour may wear this portion of the patch. Completing the patch program available through the re- source center, earns the individual rockers.	A: Absolutely! The tour relates to the Forever Green initiative, and the patch program is designed to accompany specific Journeys: Daisy– Flower Garden Journey, Brownie– WOW! Journey, Junior– Get Moving Journey. Daisies can also relate the tour to earning the Clover Petal– use resources wisely.
Q: Where can we find the patch kit?	Q: How long does it take?
At this time Daisy, Brownie, and Junior Patch Kits are available for check out from the resource center. Contact the receptionist at 1-800-771-1139 for a reservation. Activities may be completed the same day of the tour.	A: The Tour takes about 20-30 minutes depending upon the size of your group. The patch program takes about an hour. Allow 2 to 3 hours for completing the whole program
